AMERICAN BEDDING

MANUFACTURERS

EST. 1997

We Take Care of Them at Night, So You Can Take Care of Them During the Day

Beds, furniture, mattresses, linens, and bedding built to help missions and shelters create safe, durable, and comfortable spaces for those they serve.

Because comfort, safety, and dignity matter.

We know the people in your care deserve more than just a place to sleep. They deserve a space that feels safe, comfortable, and dependable from the moment they rest their head. That's why American Bedding Manufacturers designs durable beds, mattresses, furniture, linens, and bedding purpose-built for shared spaces and institutional environments where performance matters night after night.

From waterproof and bed bug-proof mattress solutions to fire-compliant materials and heavy-duty furnishings built for high-turnover use, our products are designed to support the realities of shelters, missions, and supportive housing. So you can spend less time worrying about durability, safety, and procurement challenges and more time focused on the people who depend on you every day.

- Bed Bug Proof
- Antibacterial
- 100% Waterproof

Mattresses

Fiber Mattresses

Essential and DuraLast fiber mattress comprised of a polyurethane foam core and waterproof, bed bug-proof cover.

Foam Mattresses

Our 1500 Signature Series & 1800 Premium Series offer comfort with durability and a waterproof, bed bug-proof cover.

Innerspring Mattresses

Select from a variety of product series for extended life, comfort and durability, making it ideal for facilities desiring residential-style mattresses.

Comfort Guard & Replacement Covers

Protect mattresses from bed bugs and allergens, enhancing hygiene in shared living spaces.

SCAN ME!

Furniture

5500 Platinum Series: Full Room Solutions

The Platinum Collection combines the strength of steel furniture with a warm, residential look—offering durable solutions customizable to fit your facility.

5500 & 4500 Single Metal Beds
