Furniture & Mattresses for Supportive Housing Programs

From supportive housing to transitional programs, our Platinum Series furniture is designed to withstand continuous use while creating welcoming spaces residents can rely on.

5500 Platinum Series: Fully Furnished Suites Built for the Demands of Supportive Housing

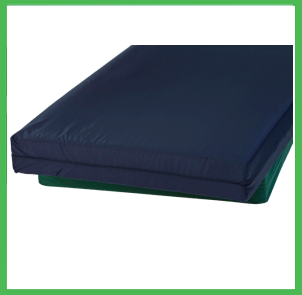

The 5500 Platinum Series metal furniture is designed for high-use residential environments such as supportive housing, transitional housing, and group living facilities where durability and flexibility are essential.

Built with a heavy-duty steel frame and multi-welded construction, the sleep surface is designed for continuous use with an occupant weight rating of up to 400 lbs (600+ lbs static load equivalent). It delivers long-lasting performance in demanding settings. The bed features top-quality powder coating, is available in 36″ and 38″ widths, and includes an adjustable spring base that converts from 75″ to 80″ length to accommodate varying room needs.

Its demountable design allows the unit to convert into two single beds, while 13″ underbed clearance provides space for storage; optional rails and ladders offer additional safety and functionality for shared living environments.

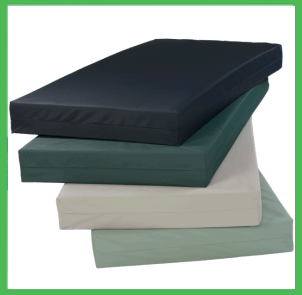

- Bed Bug Proof
- Antibacterial
- 100% Waterproof

Mattresses

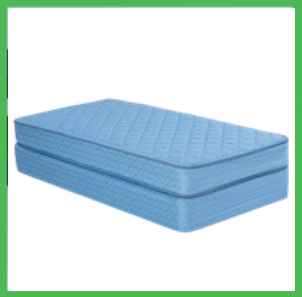

Fiber Mattresses

Essential and DuraLast fiber mattress comprised of a polyurethane foam core and waterproof, bed bug-proof cover.

Foam Mattresses

Our 1500 Signature Series & 1800 Premium Series offer comfort with durability and a waterproof, bed bug-proof cover.

Innerspring Mattresses

Select from a variety of product series for extended life, comfort and durability, making it ideal for facilities desiring residential-style mattresses.

Comfort Guard Covers

Protect mattresses from bed bugs and allergens, enhancing hygiene in shared living spaces.

SCAN ME!

Furniture

5500 Platinum Series

The Platinum Collection combines the strength of steel furniture with a warm, residential look—offering durable solutions customizable to fit your facility.

5500 Single Metal Beds

Demountable bunk beds easily convert into two single beds and are available in twin and full sizes, offering flexible, space-efficient sleeping solutions.

5500 Storage Solutions

Standing wardrobes and under-bed storage provide durable, space-saving organization to keep resident belongings secure in high-use environments.

5500 Chests & End Tables

End tables and 4-drawer chests provide secure personal storage and practical bedside comfort, helping residents keep belongings organized and close at hand.
